THE LIBRARY OF CONGRESS

WASHINGTON: 1954

## Introduction

The *East European Accessions List* is a monthly record of monographic publications issued after 1949 and periodical publications issued after 1950 that are currently received by the Library of Congress and, indicated, by other American libraries. Imprints of the following countries as well as publications issued elsewhere in the languages of these countries are included:

Albania	Latvia
Bulgaria	Lithuania
Czechoslovakia	Poland
Estonia	Rumania

The List includes three parts:

The first part lists monographic and periodical publications for each country, grouped under general subjects with monographs and periodicals separately alphabetized under each subject. Monographs in series and annual publications are treated as monographs and are listed in the list of monographs. Entries appear under the following general subjects based on the Library of Congress Classification:

Each monograph is listed in the original language or in transliteration—in accordance with the Library of Congress practice—followed by a translation of the title. Each periodical is listed in the original language or in transliteration followed by a translation of the title or a descriptive annotation in English. Receipts are recorded by volume, number and date. Contents (in English) are provided for selected periodicals in accordance with their importance and the availability of staff.

The second part is a subject guide to both monographic and periodical publications listed in the first part. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Aug	August	Ag	August	D	December

The third part is an alphabetical list of the periodicals recorded subsequent to Volume 1 and the abbreviations used for the periodicals. A symbol denoting the country of publication and general subject of each title is given following the periodical title.

Certain forms of material, such as textbooks below the university level, juvenilia, and pamphlets, are generally cataloged by the Library nor are they included in the *List*; however, they are available for reference use in groups arranged only by subject. Newspapers currently received will be listed in an annual supplement.

The *East European Accessions List* is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price 50 cents a copy; subscription price, \$4.25 a year domestic, \$5.50 a year foreign.
